TERMS AND CONDITION

Trial Production of Vermicompost

We invite interested parties to submit their Expression of Interest (EOI) for trialing in the production of vermicompost.

Project Overview:

Aizawl Municipal Corporation is seeking to trial the production of vermicompost, a nutrient-rich organic fertilizer produced through the decomposition of organic matter by earthworms. The trial aims to assess the feasibility and scalability of vermicompost production within already existing Plant/Building at Solid Waste Management Centre, Tuirial, Aizawl.

Scope of Work:

The trial will involve:

- Setting up a vermicompost production unit if required, apart from the existing facilities.
- Procurement of raw materials (organic waste) must be only from the wet waste collected by the AMC
- Maintenance of earthworm stock, etc.
- Monitoring and reporting of production parameters
- Supply of vermicompost for testing and evaluation
- **Duration of trial must be finalized within 6 months from the start of the trial**

Eligibility Criteria:

- Individuals, organizations, or institutions with experience in organic farming, composting, or related fields
- Willingness to participate in the trial and provide regular updates

How to Apply:

Interested parties are requested to submit their Expression of Interest in plain paper, including:

- Brief introduction and profile
- Relevant experience and expertise
- Description of proposed approach and methodology
- Expected outcomes and benefits
- Financial complication

Submission Deadline: 18th Feb., 2026
